

# **436th Medical Group Pharmacy Formulary Dover AFB**

**EDITION: August 2005**

Dear Provider:

The 436th Medical Group, Dover Air Force Base Pharmacy dispenses medications for your DoD eligible patients. In order to improve service to our patients and their practitioners, we have prepared this handbook of the medications routinely stocked and Pharmacy dispensing policies. Section I of the handbook is organized alphabetically by generic name and Section II is organized by medication category. Please note that medications are often added and deleted from this list so please call the Pharmacy at 302-677-2531 to ensure we stock the medications you desire to prescribe.

1. Prescription Policies:

- a. All prescriptions are filled with a generic equivalent if available. The pharmacy will not honor prescriptions that are marked or signed "Dispense as Written," if a generic product is stocked.
  - b. Prescriptions must be written legibly in ink or typewritten. The prescriber's signature must be signed in ink. Stamped signature prescriptions for ANY controlled substances will not be honored. Any changes made on the prescription should be corrected by crossing out the error and re-writing the information. In all cases, the prescriber must initial changes made to the prescription.
  - c. Controlled substances **MUST** be written on separate prescriptions from other medications. The physician's DEA number must be on all prescriptions for controlled substances. Schedule II prescriptions must be filled within seven days of the date written. Quantities of controlled substances in Schedule III-V may not exceed a 60 day supply. Quantities for Schedule IIs may not exceed a 30 day supply. Methylphenidate and Dextroamphetamine may have a 90 day supply when ADD or ADHD is specified. The pharmacy will not fill prescriptions for controlled substances written by prescriber's for themselves or their family members.
  - d. Prescriptions from civilian practitioners for eligible beneficiaries will be honored provided the prescribed medication is routinely stocked. We strongly suggest that all medications be written on separate prescriptions to prevent an inconvenience if a medication is not stocked or cannot be filled at our pharmacy.
  - e. The Pharmacy cannot accept new prescriptions or refill authorization via telephone or fax.
  - f. Quantities of maintenance medications are limited to the quantity written on the prescription, up to a maximum of a 90-day supply. Please limit "PRN" medications to a quantity sufficient for an episode of care and add refills as necessary. Pharmacists will adjust refills on maintenance medications to conform to the dispensing limitations. Refills will be honored for no longer than one year from the original date of the prescription for non-controlled medications and six months for refillable controlled drugs.
  - g. A 100% Military ID check is in place when picking up prescriptions.
2. Hours of Operation: Mon-Fri 0730-1700 excluding federal holidays and the 2<sup>nd</sup> Tuesday of every month, when the Pharmacy opens at 0900.
  3. Telephone Numbers: (302) 677-2531 or (302) 677-2019
  4. 24-hour Refill Line: (302) 677-2533 or (800) 831-7944
